Subject: Microsoft anti trust suit

Dear sirs,

It is in the best intrest of the nation and the world at this time to restore faith in the United States economy. The Microsoft anti trust suit has greatly damaged that faith and I believe has led us to where our economy is today.

Everyone wants a piece of the pie and everyone is jealous of someone elses success so lets stop being petty and settle this case showing that the American dream is what it is supposed to be.

Rule in favor of Microsoft.

sincerely,

Gregory M. Gosser
